

### Project: Women Affairs Center

WAC is a leading WRO in Gaza, through this project WAC will contribute towards preventing cases of GBV in Gaza through conducting an intensive training for twenty four female and male university students and twenty five young leaders (each group will be targeted separately) those youth will conduct separated awareness activities in communities and universities targeting university students, women and men at the level of the households, young married and engaged couples, girls and boys. As well those youth will lead and conduct a local advocacy on "combating femicide and the culture of impunity for GBV", as well WAC as its role to raise awareness in Gaza will develop and manage a special website and electronic forum for the project. WAC will contribute as well to provide access to services for forty women survivors of violence by providing them with legal and psycho social services and guidance for other services if needed. Finally WAC will raise accountability towards duty bearers by conducting two round table discussions with duty bearers and women survivors of violence.

### Actor: Women's Affairs Center Gaza Shu'un al Mar'a

The Womens Affairs Centre in Gaza focuses on research and training to promote the equal rights of women in Palestinian society. Its goal is to empower women politically, economically and socially and to promote gender awareness in Palestinian society. WAC does this through a program of research, training and lobby to overcome obstacles to the equality of men and women, to analyse and develop tools and strategies for overcoming them. WAC is also involved in activities such as training women to set up and improve small enterprises, in how to use cameras for making videos and films, and in writing and computer skills. The research program is linked to its activities on the themes of child marriages, violence against women and womens rights. WAC has been working in Gaza since 1991 and Oxfam Novib has been supporting it since 1992.
